

Accessing River Status information on the Environmental Protection Agency website

Water Framework Directive Status 2007-2009 information may be accessed at this link

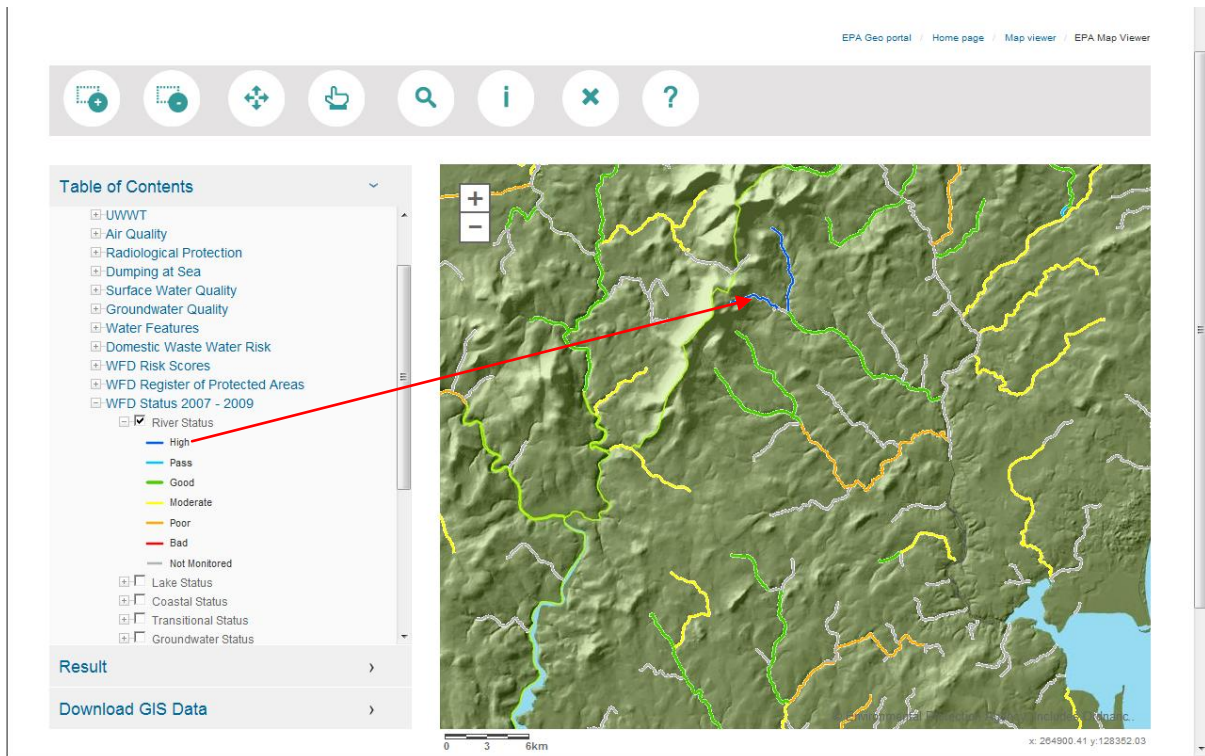

<http://gis.epa.ie/Envision>

Expand the WFD Status 2007-2009 menu.

You will not be able to check the river status box until the map is zoomed in.

The river status box is checked and the rivers area highlighted to reflect their status according to the key (arrow indicates a high status watercourse).

Further information may be downloaded here
