### Average Grade E Pig Price

### Pig Slaughtering Figures

# Pigmeat Industry Overview

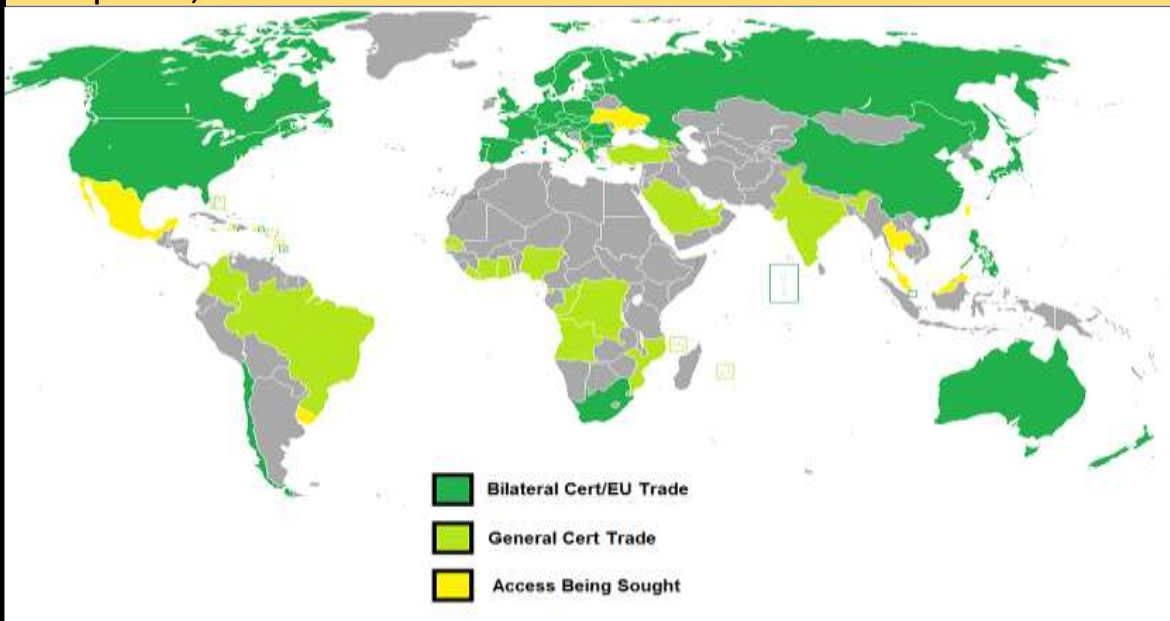

· CSO figures show that last year, Ireland exported 276,000 tonnes of pigmeat products (including prepared food) worth approximately €791m, comprising 6% of overall agri-food exports. This represents a rise of 8% in value terms when compared to 2016.

· Ireland's largest export market by far was the United Kingdom, accounting for approximately 56% of the total, followed by China, at 7%. Denmark, Germany and Japan were next, together comprising roughly 1.25% of export values.

· The Irish pig industry is characterised by large, indoor commercial farms with no 'bought in' animals. However, roughly 1,500 small scale farmers are registered with the Department of Agriculture, so a modest outdoor sector does exist.

· In 2017, 3.3m pigs were slaughtered in Irish export-approved plants, a rise of 1.2% compared to the previous year.

· Irish pigmeat exporters have access to a wide range of markets across the globe, as can be seen in the map below;

· EU production is predicted hold steady into 2019, exports to drop, imports rise and consumption to stay the same, according to the EU Commission's short-term outlook. The EU pig herd grew by 1.4% last year by head count. However, a decline in volume of 0.8% was observed. EU exports globally are projected to rise by 2.5% this year.

· EU Exports to China declined by 9% to 2.6m tonnes following the all-time highs of 2016, but still remained well above the 2015 levels. China accounted for 28% of EU exports last year, down 10% from 2016. The EU supplied 56% of China's pork imports last year.

· In April, China announced the imposition of 25% tariffs on US pork imports in retaliation for American tariffs on Chinese metals.

· According to OECD figures, the EU is the world's largest consumer of pigmeat at 32.5kg per capita, followed closely by China (30.8kg), Vietnam (29kg), South Korea (28.7kg) and the USA (23.6kg). In general terms, consumption is high in Europe, East Asia and the Americas, and low in the Islamic world and Africa.
